PULMOCON 2020

18th All India Update in Pulmonary Medicine

Dear Colleague,

Greetings from Kolkata again. The pandemic has changed a lot and has taken lives of many of our colleagues. We pray for their souls to rest in peace.

The COVID onslaught stunned us initially but gradually things are returning with in a different mode and order and life continues on with new hopes and aspirations.

We have decided to go ahead with our plan of Pulmocon, our annual All India Congress on Pulmonary Medicine. With changing time, we have just decided to shift from the "hand-shake" to "Namaskar" mode; so, Pulmocon 2020 will be held on virtual platform.

We have planned to make it in multiple modules each covering an important area of the subspecialty on some of the coming Sundays in October, November, and December. We will try to make it as interesting as possible and will feel delighted to welcome you, your students and colleagues. Please pass the message to all of them.

With sincere regards,

Dr. Dhiman Ganguly
Organising President

Dr. Parthasarathi Bhattacharyya
Organising Secretary

The Story of PULMOCON

Pulmocon - 2020 is the 18th Pulmocon in a row. This annual national level pulmonary update started in the year 2003 and has been gaining appreciations over the years. So far, it has been graced by many famous national and international faculty members.

PULMOCON 2020

18th All India Update in Pulmonary Medicine

Program Highlights

The Pulmocon 2020 will be held in multiple modules across the evenings of most of the Sundays of October, November and December, 2020.

Each module will focus a single issue of importance to a pulmonologist and we are trying to make it an innovative one so that the audience is satisfied with carry home messages. For example:

■ Module on Telemedicine

- Telemedicine: legal and ethical issues
- Pros and cons: "I do not practice telemedicine" and "I prefer to practice telemedicine"
- Telemedicine: barriers to break and how shall we prepare
- Telemedicine: the future.

■ Module on acute pain chest and breathlessness: case-based approach

■ Module on research presentation (see format on free paper session)

■ Prof. SN De Memorial oration

■ Acharya APC Roy innovation award

About the Institute

The Institute of Pulmocare & Research was born in 2000 AD with a motto of Research, Education and Patient care. With increasing urbanization, pollution, and other factors, the respiratory problems are on a rise. The institute is devoted to address them in an organised fashion, with research and innovations as best as possible to its capacity.

As a Scientific and Industrial Research Organisation (SIRO), the institute has already marked its presence with several research and development activities. We are also deeply engaged in patient care, education and benevolence alongside. We expect your support in our journey and earnestly solicit your best wishes with positive criticisms.
